

The Ripple of a Smile

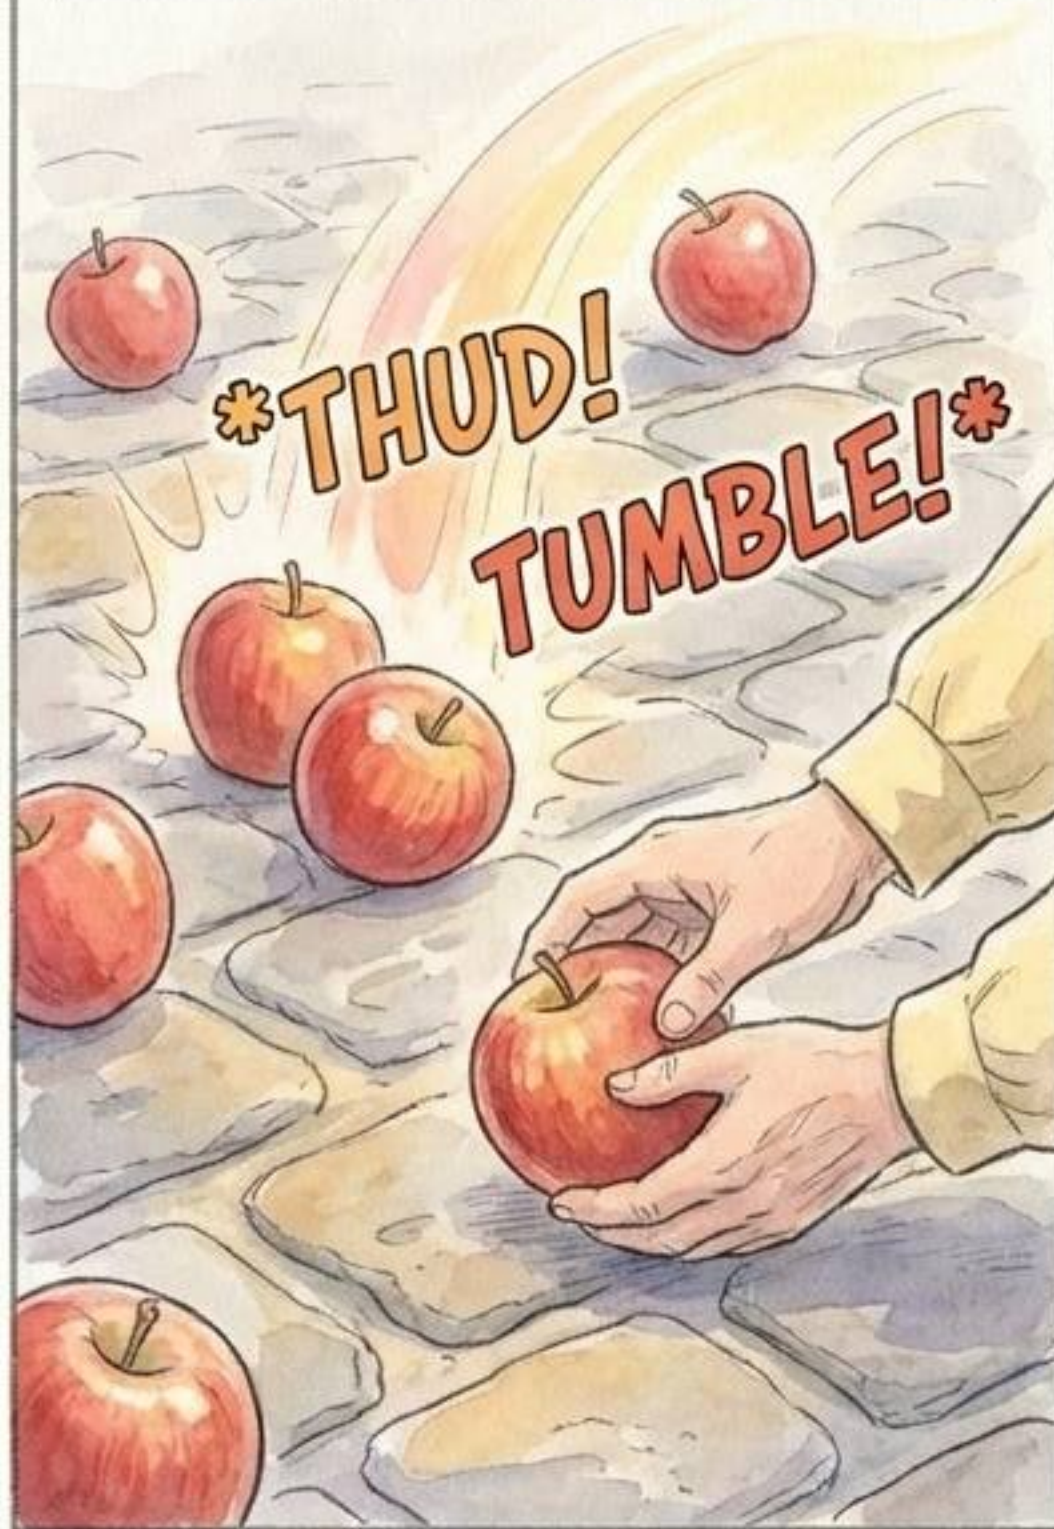

A single act of caring
creates an endless ripple.

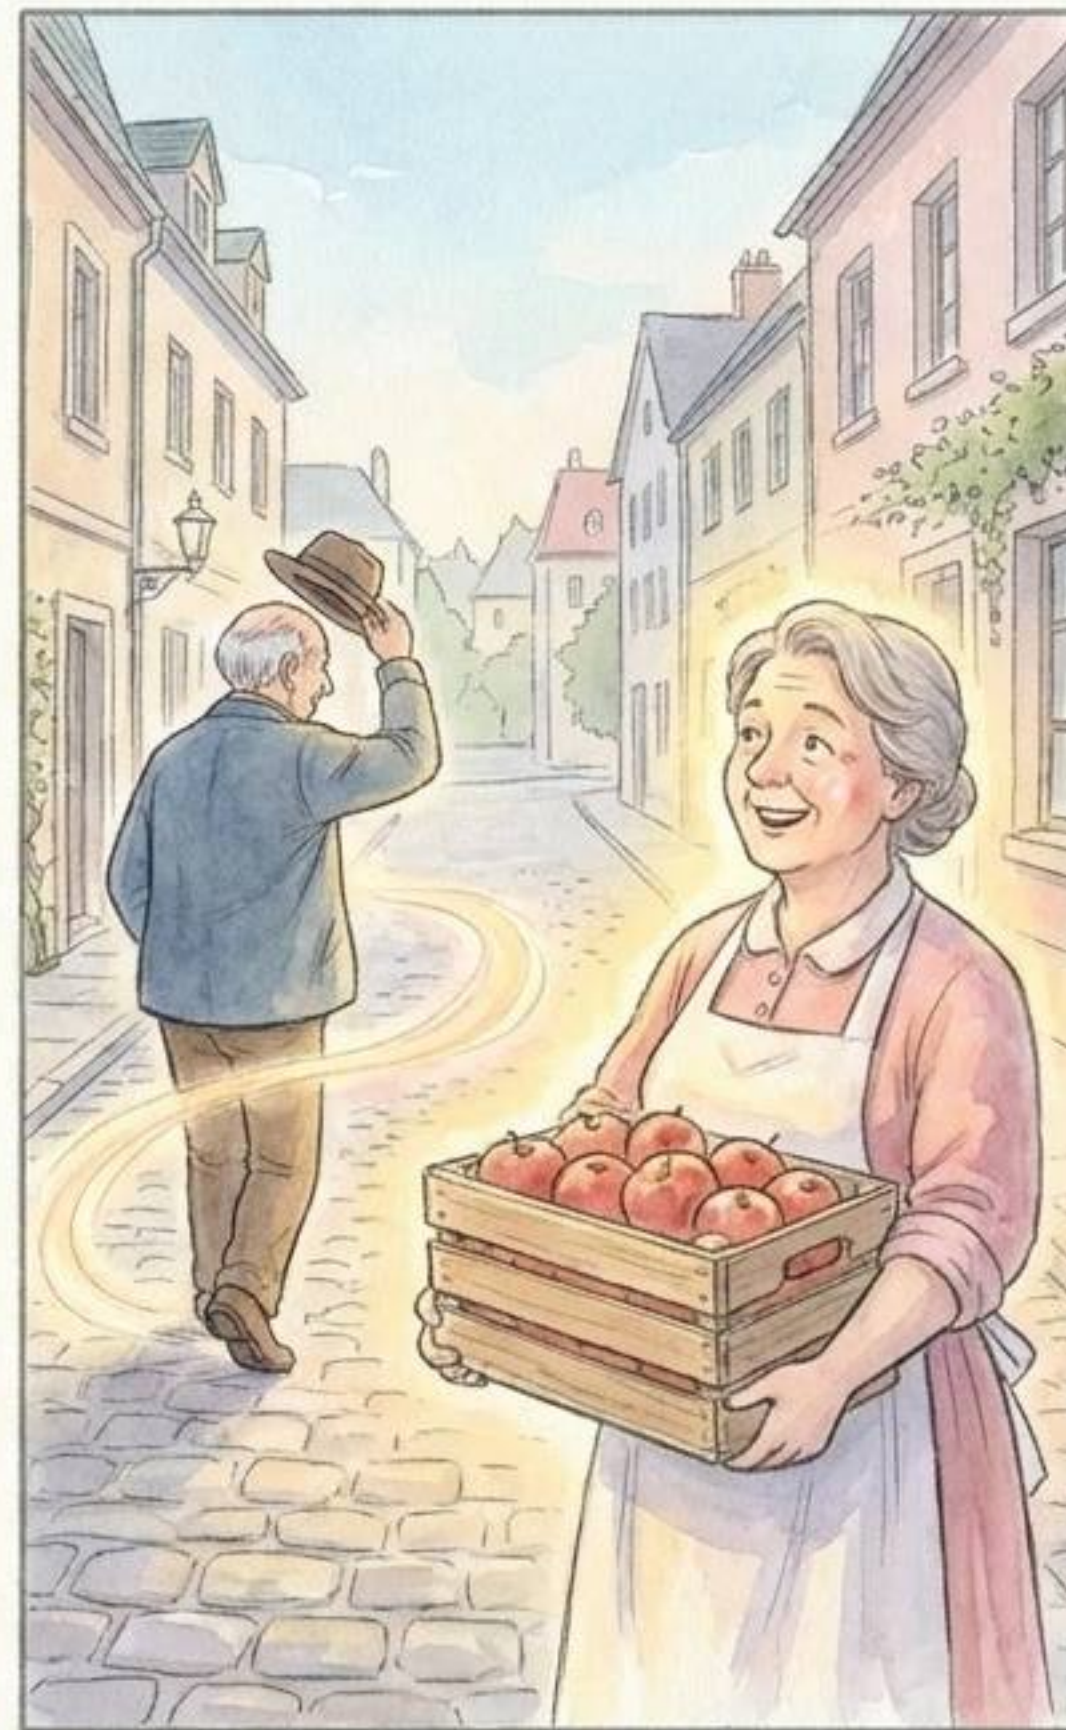

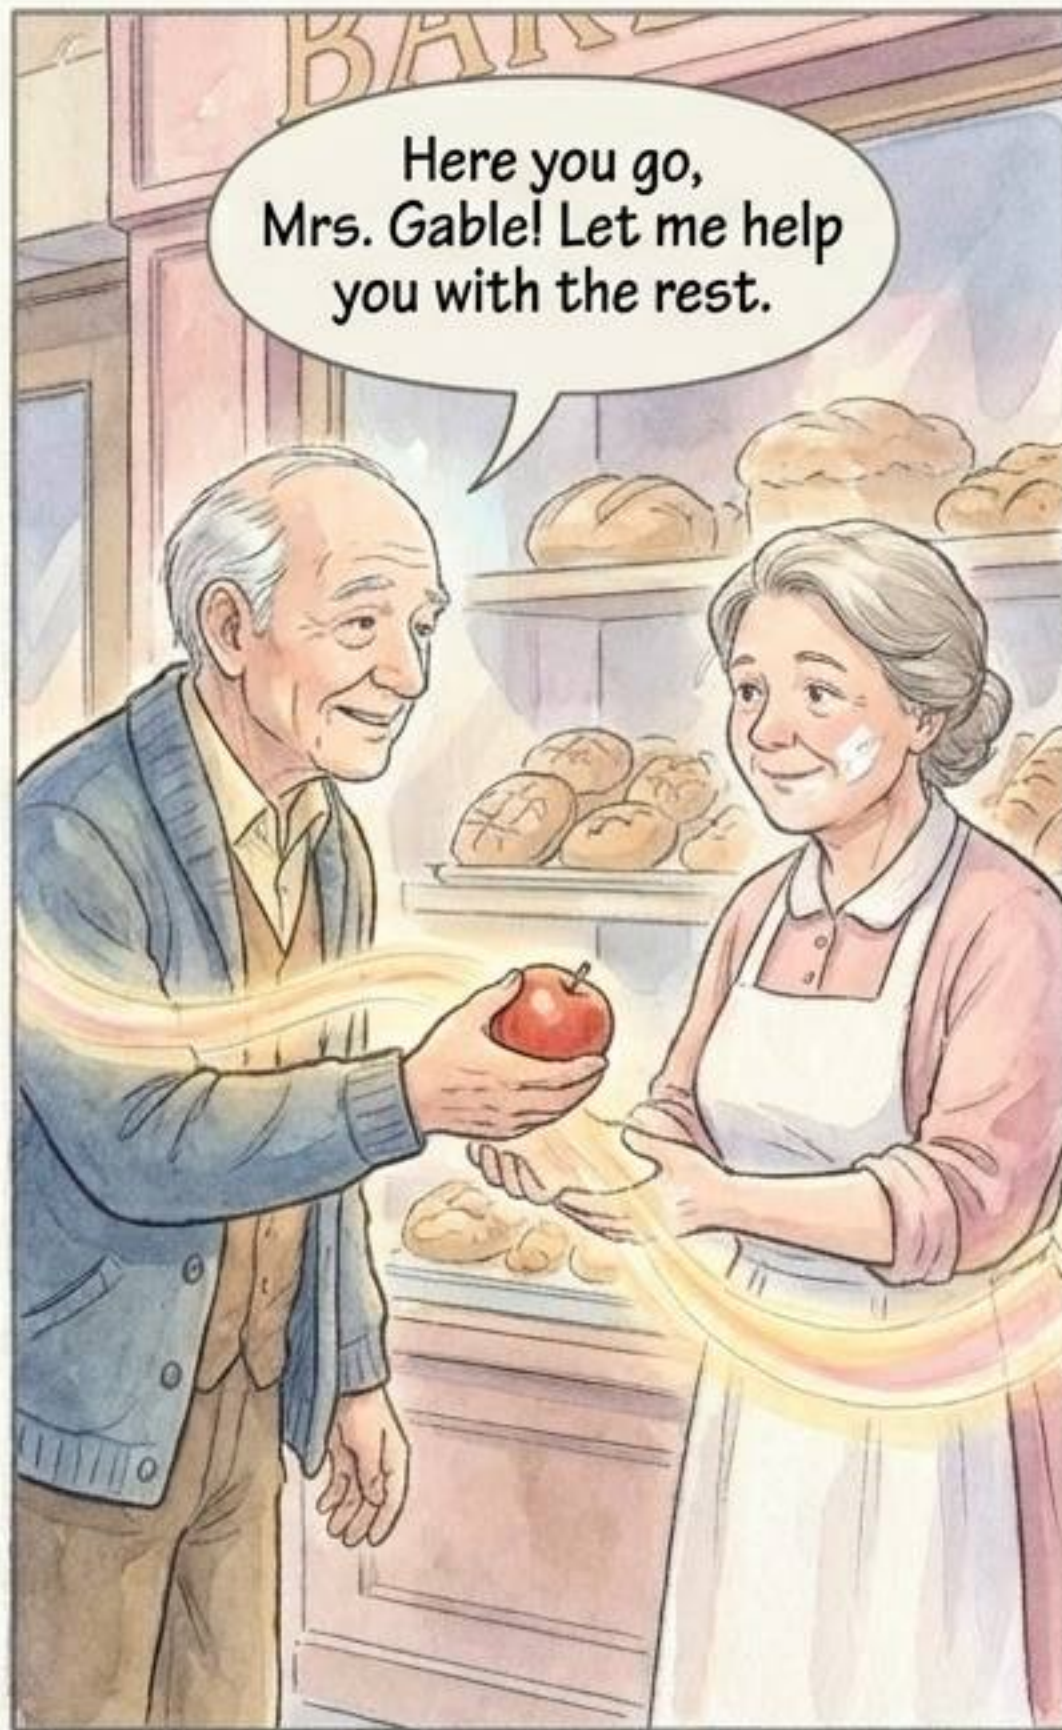

A Choice at Sunrise

It started with something small.

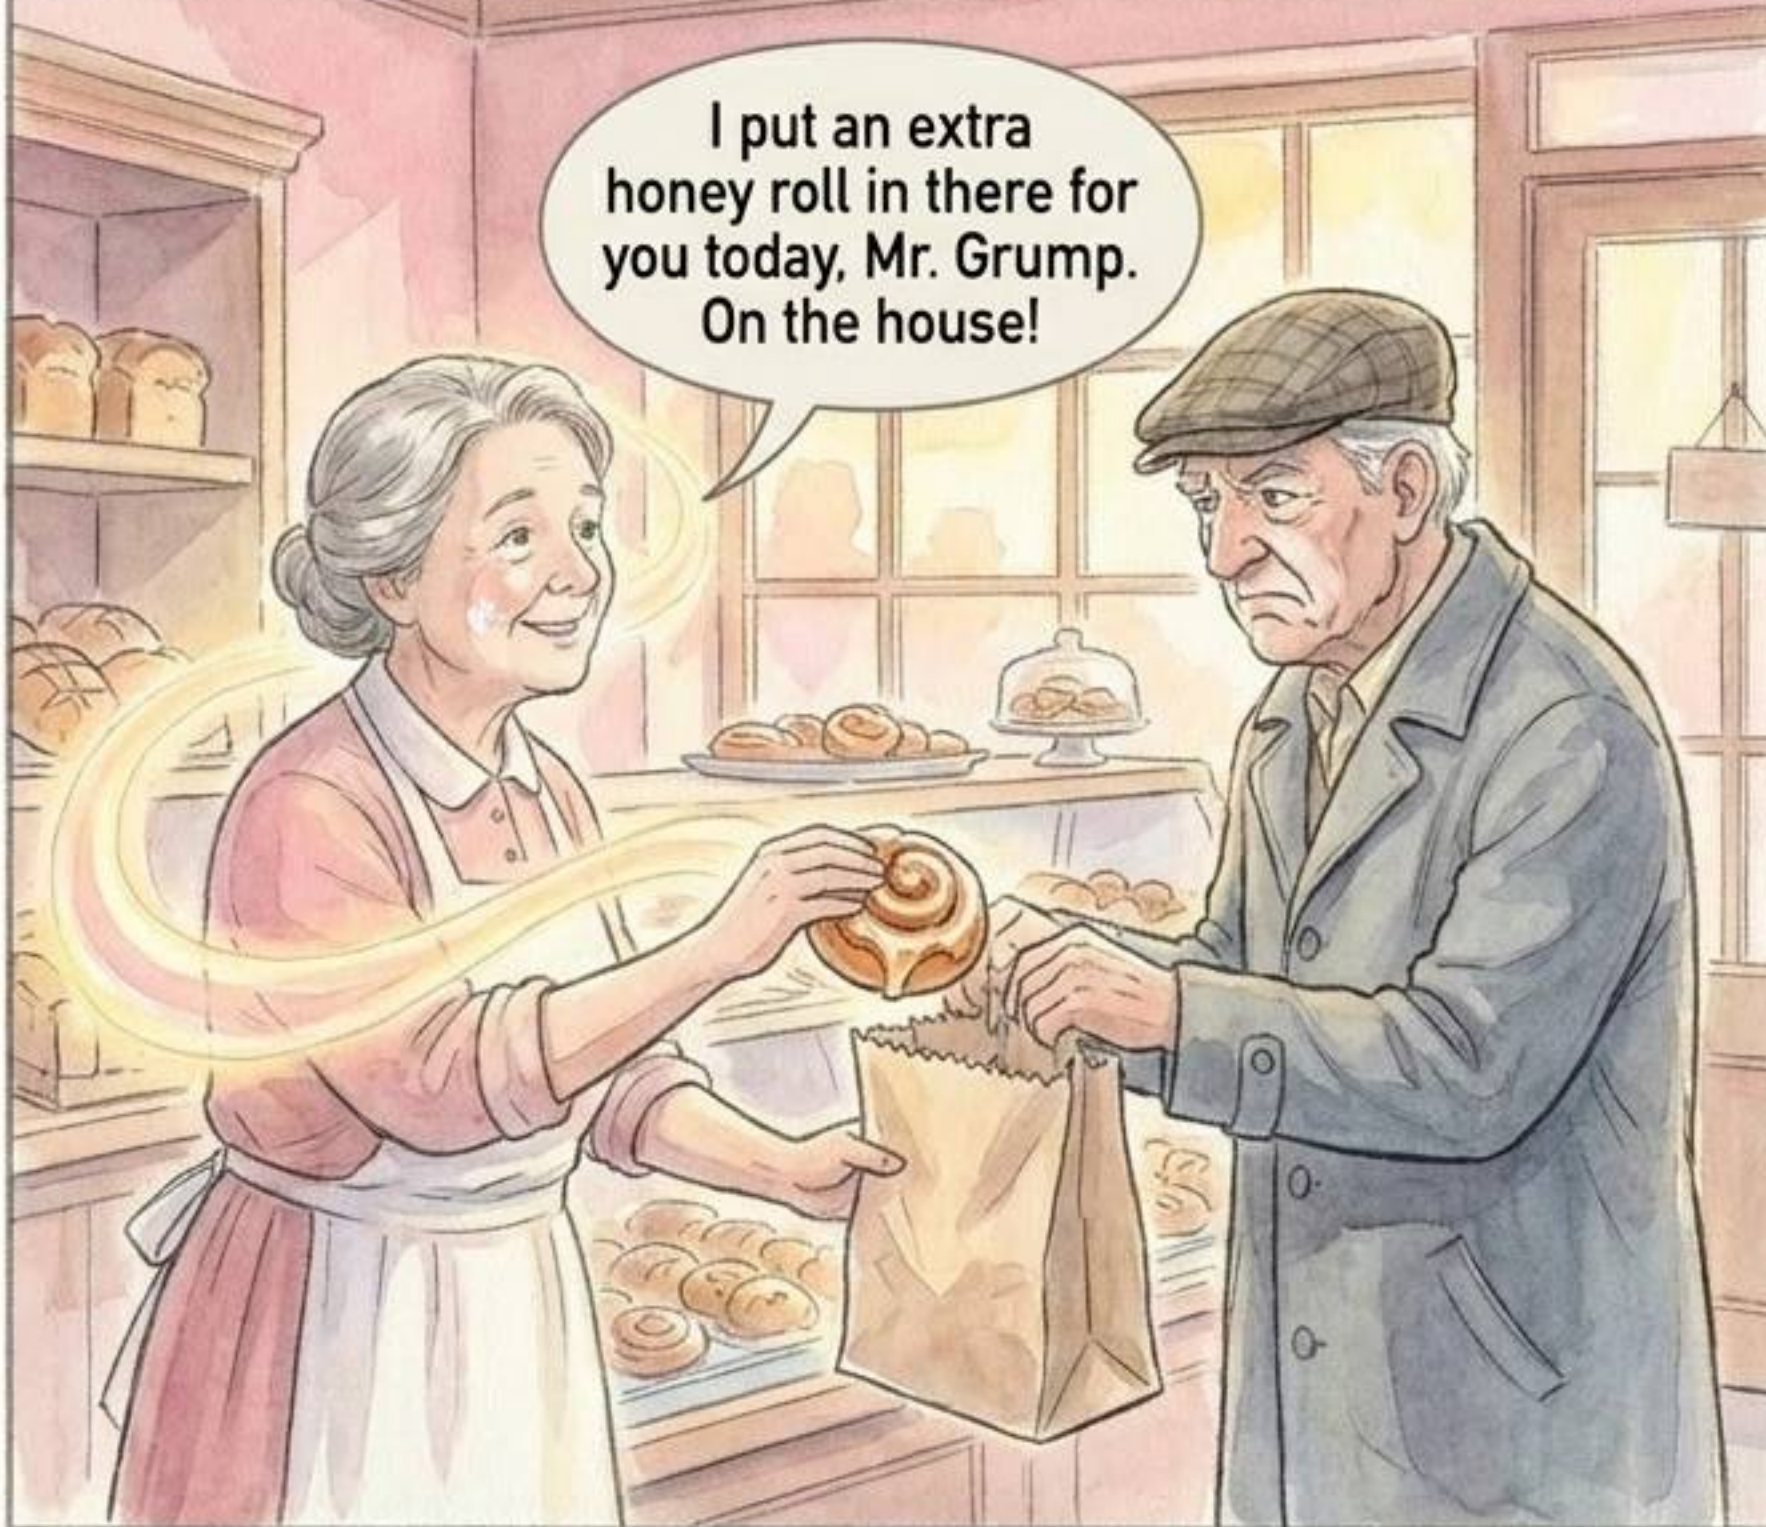

Here you go,
Mrs. Gable! Let me help
you with the rest.

That tiny bit of kindness stayed with Mrs. Gable all morning.

I put an extra
honey roll in there for
you today, Mr. Grump.
On the house!

Oh... why,
thank you, Mrs. Gable.
Thank you
very much.

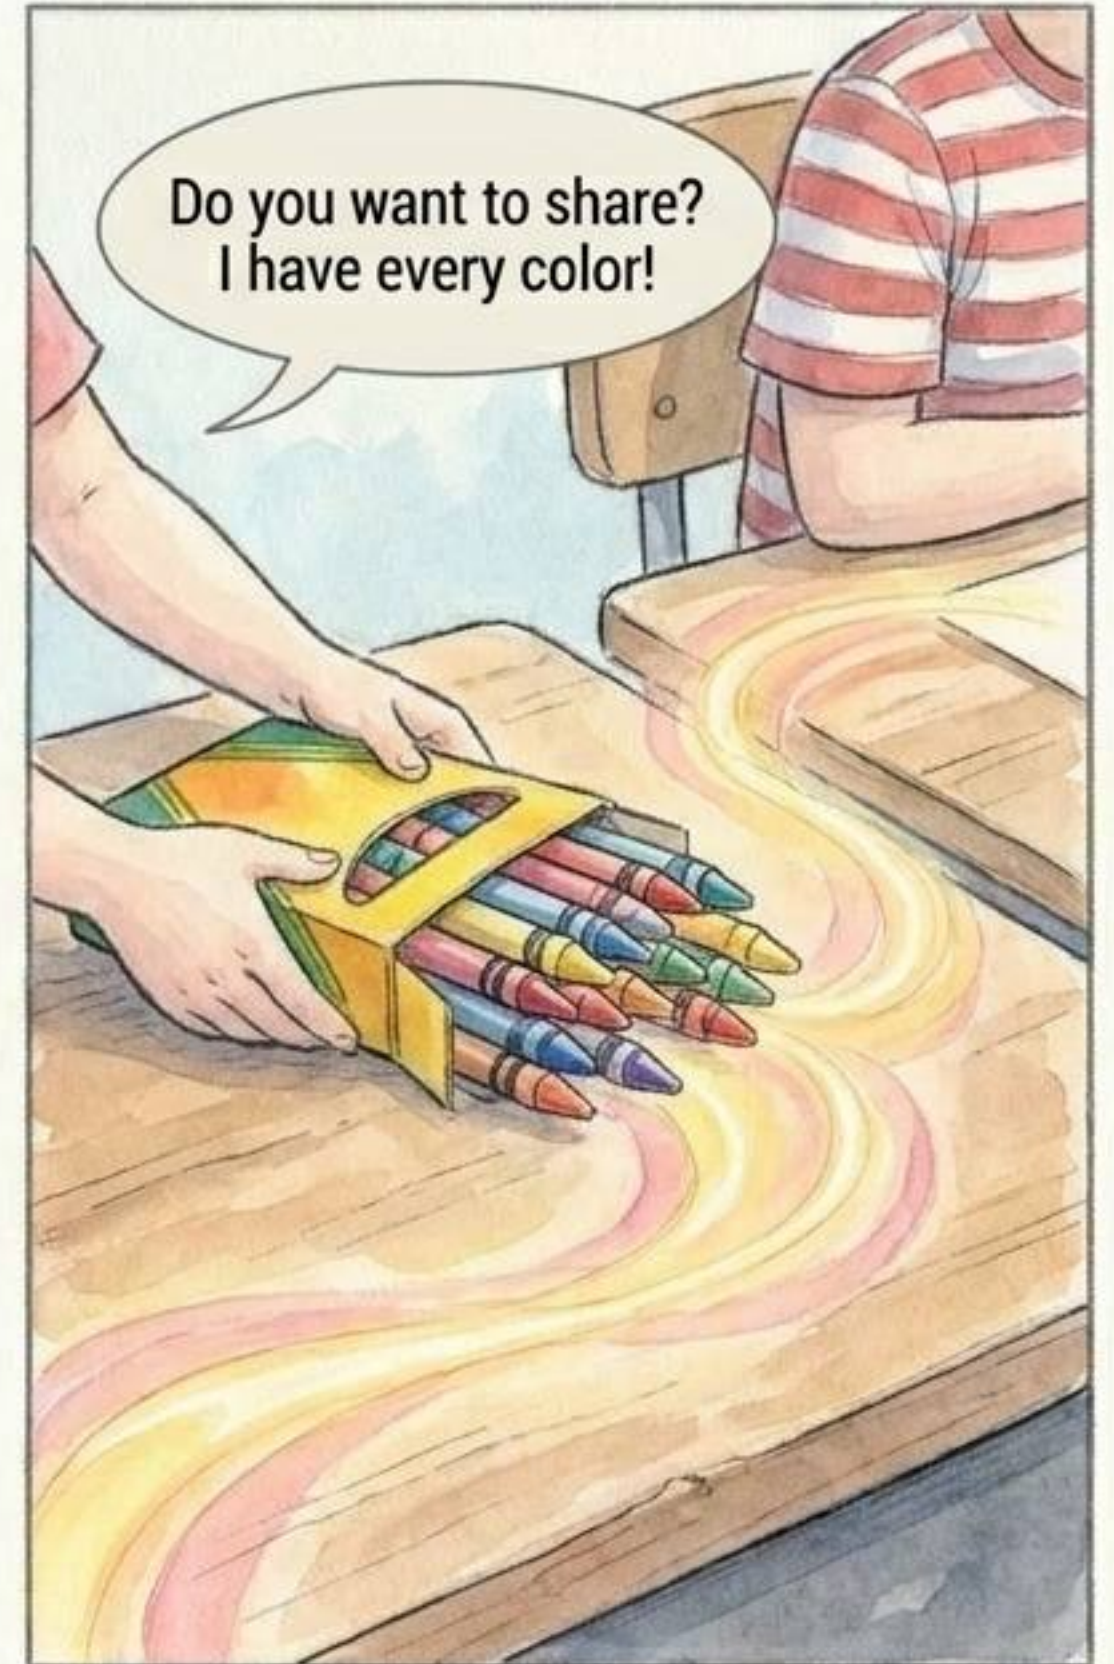

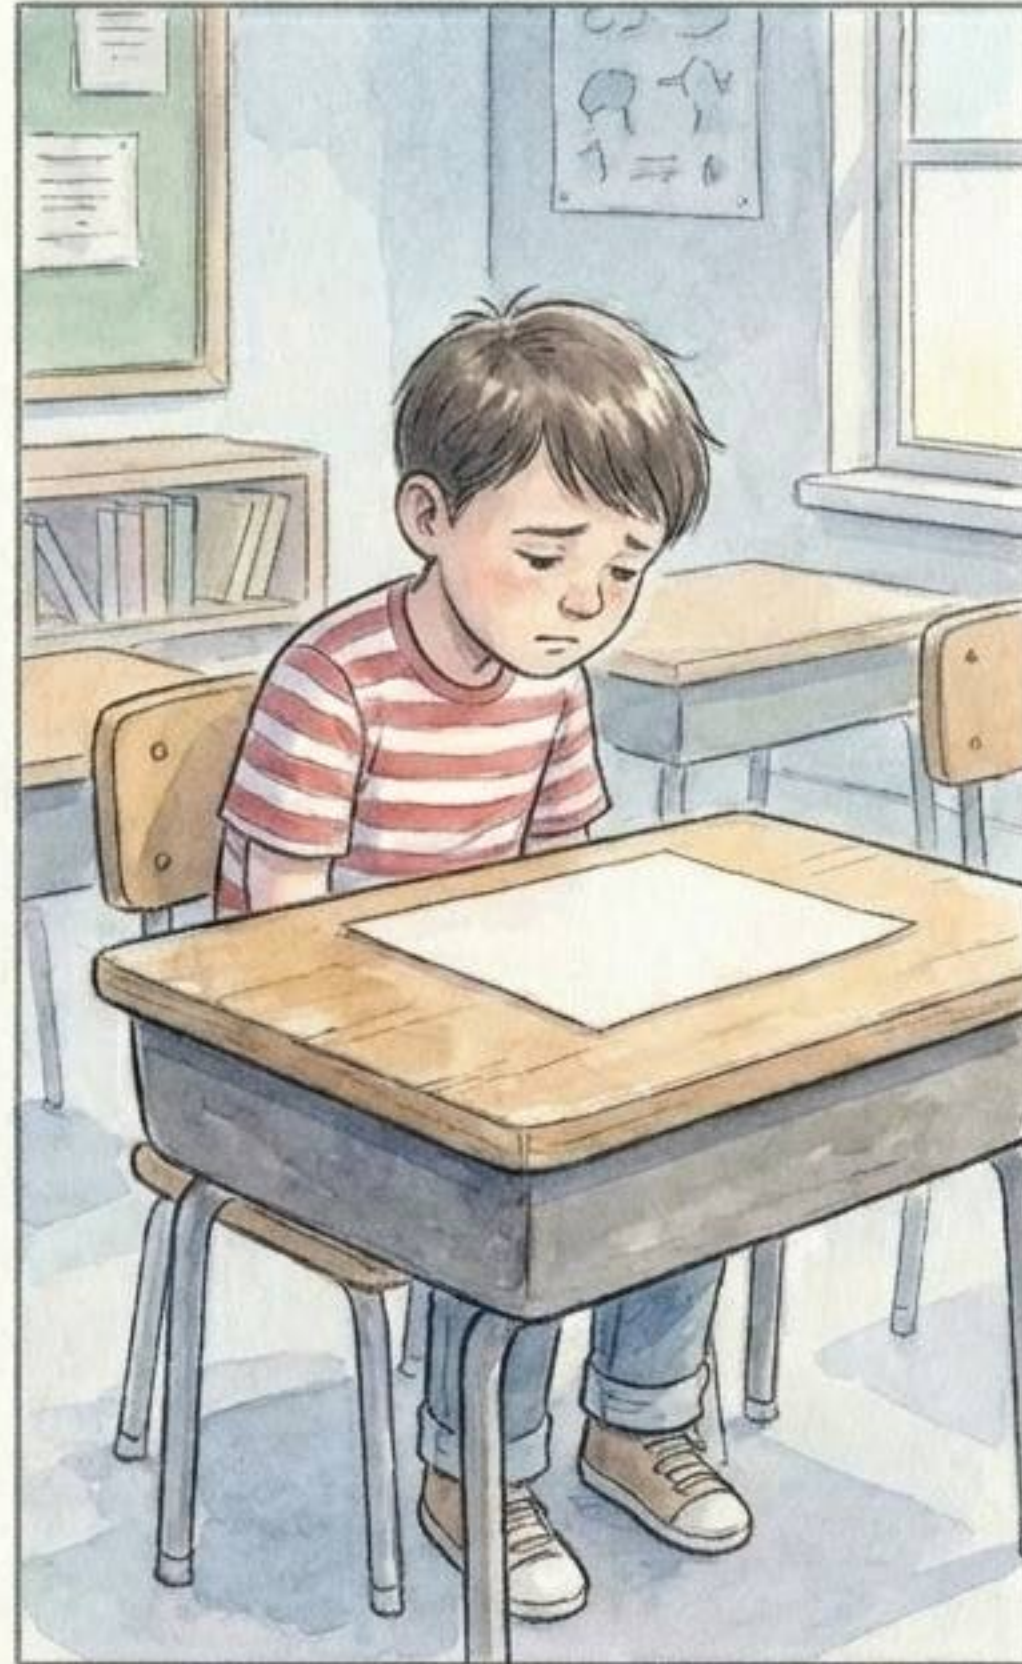

Mr. Grump usually walked with his head down. But today, he looked up.

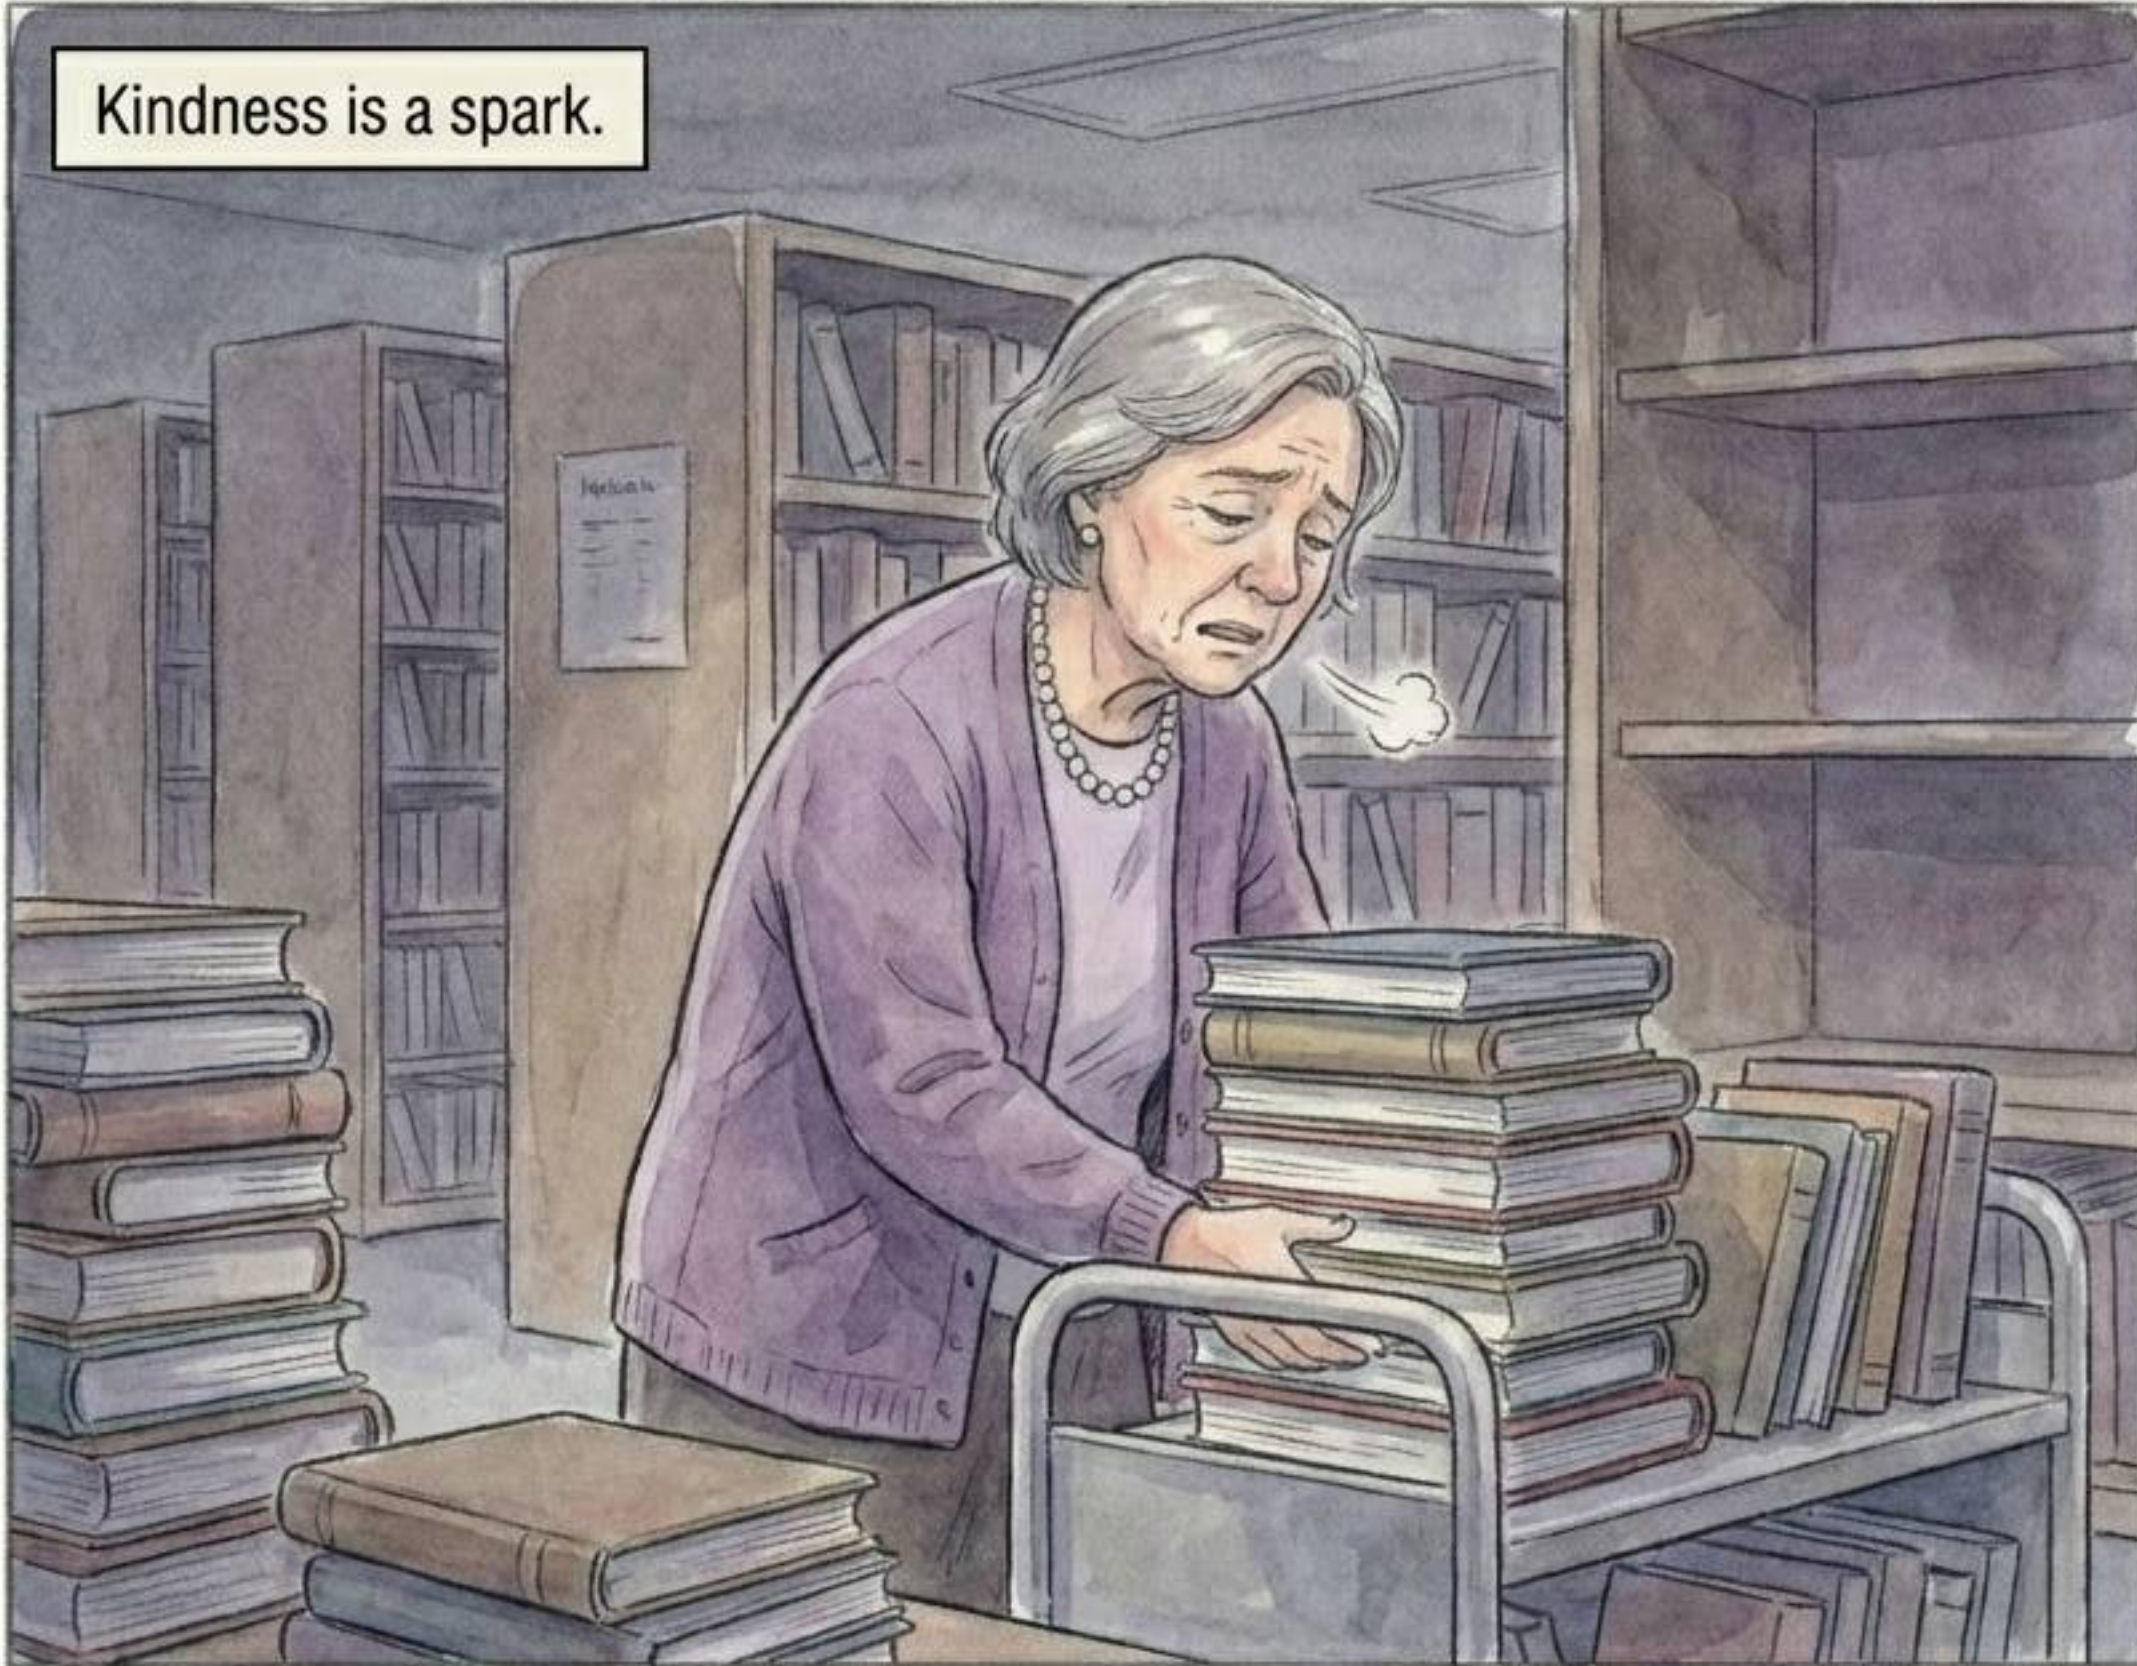

Someday, when you're able to help somebody, you will do it.

Lily still felt as high as her kite.

Kindness is a spark.

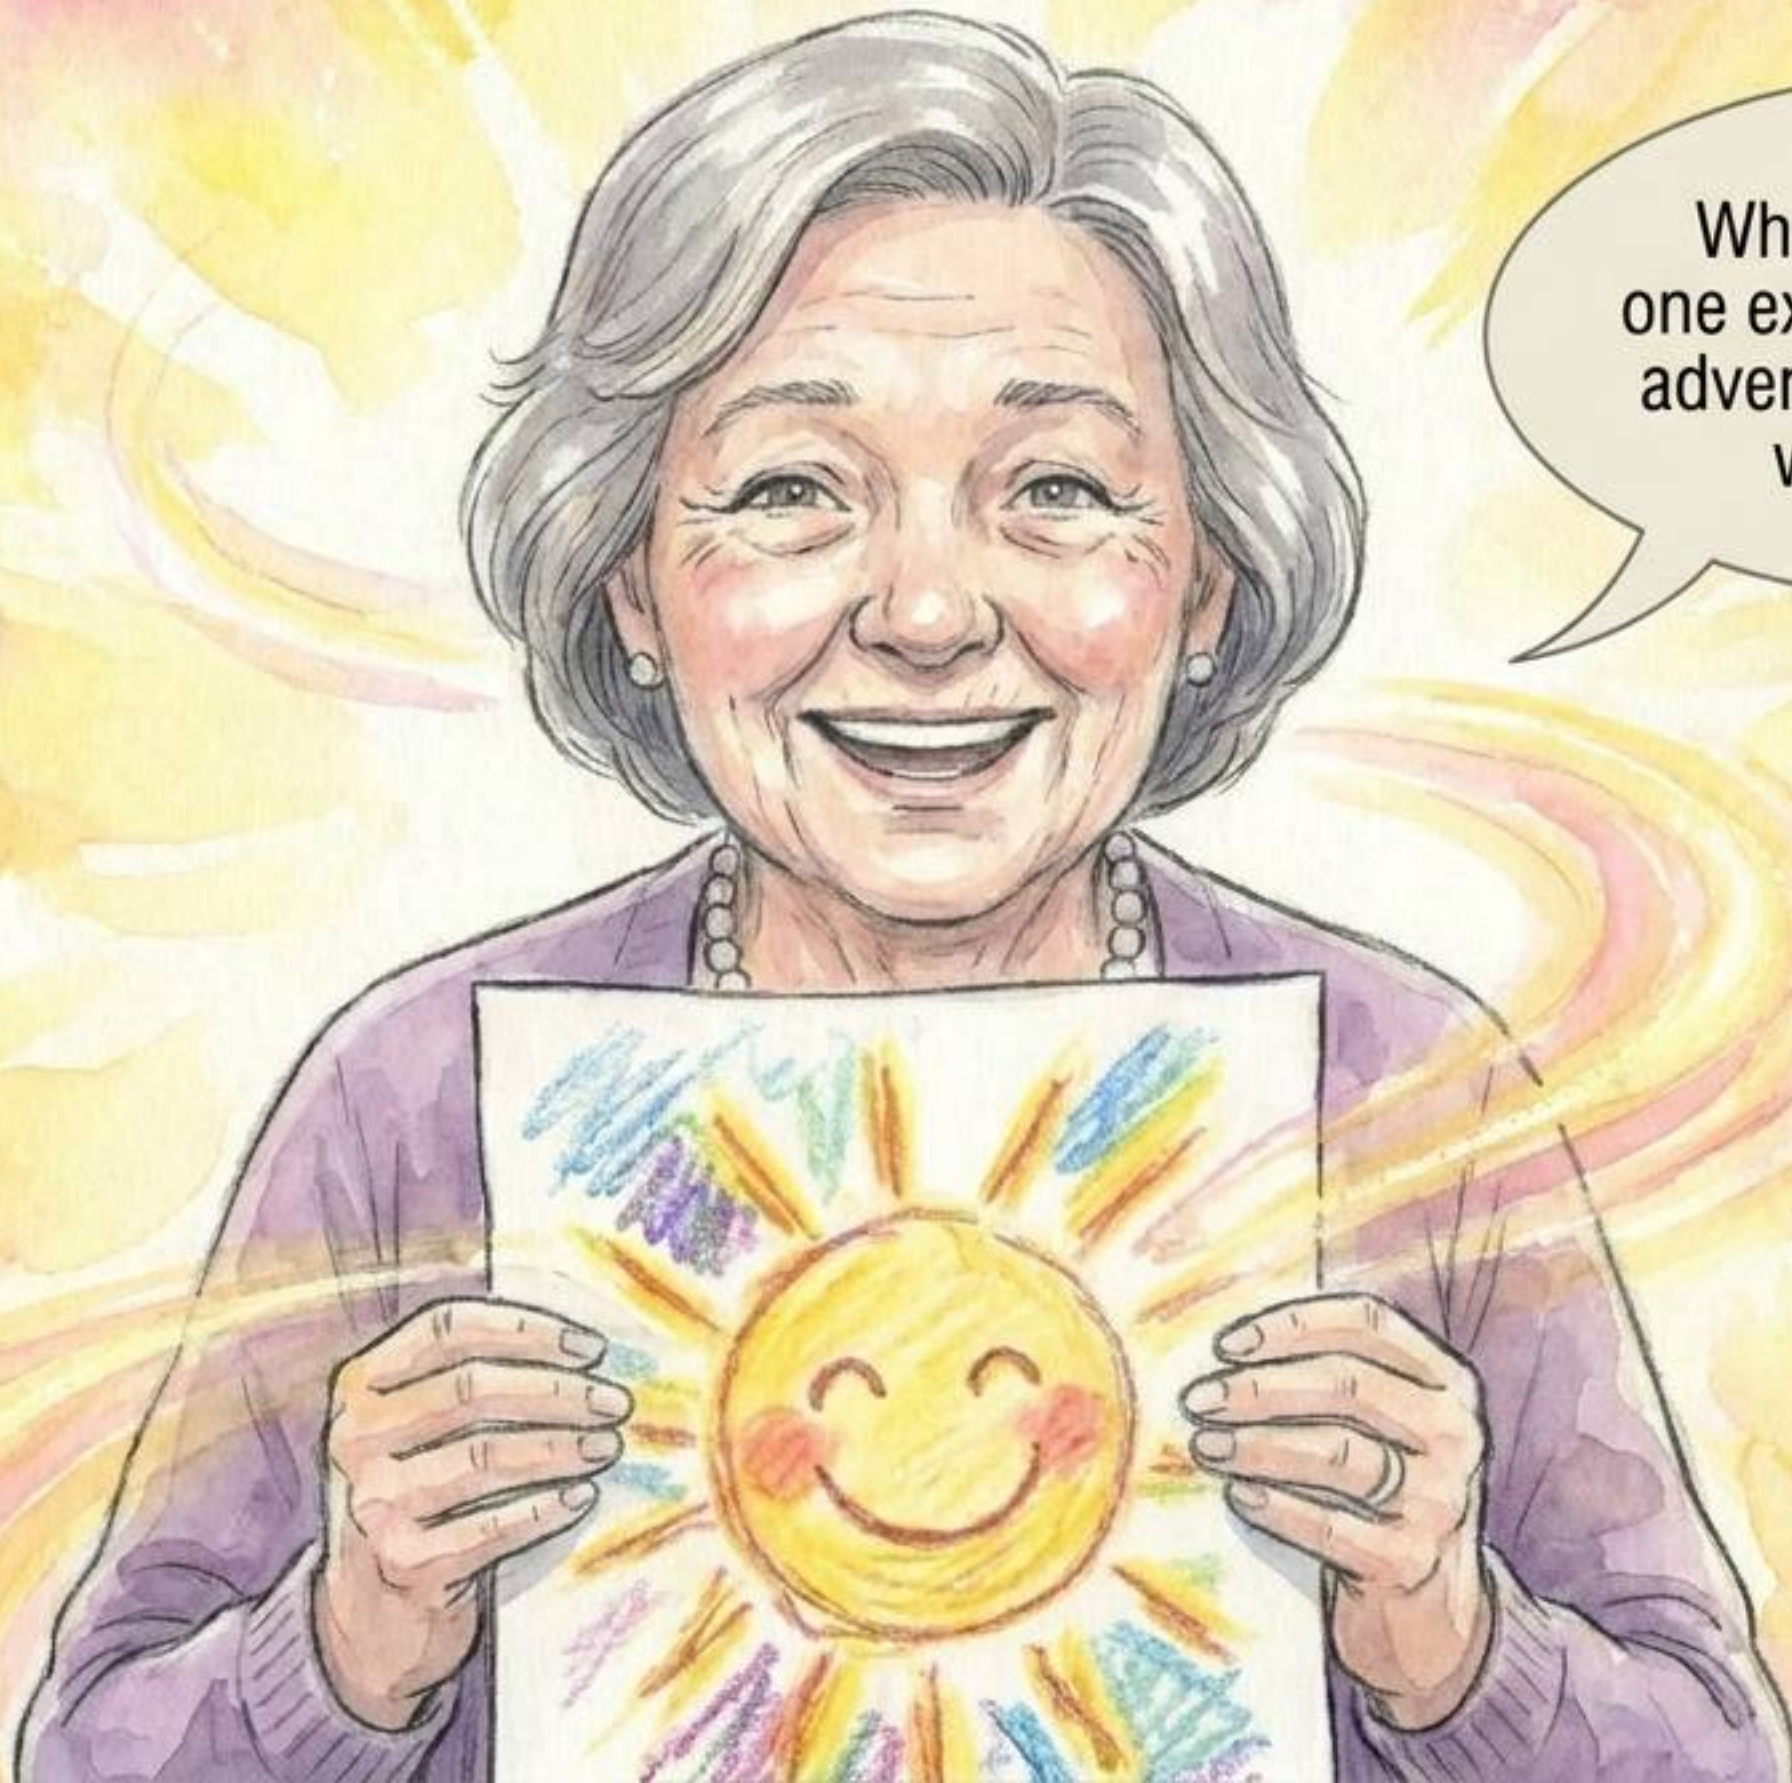

I made this for you!
Because you read the
best stories!

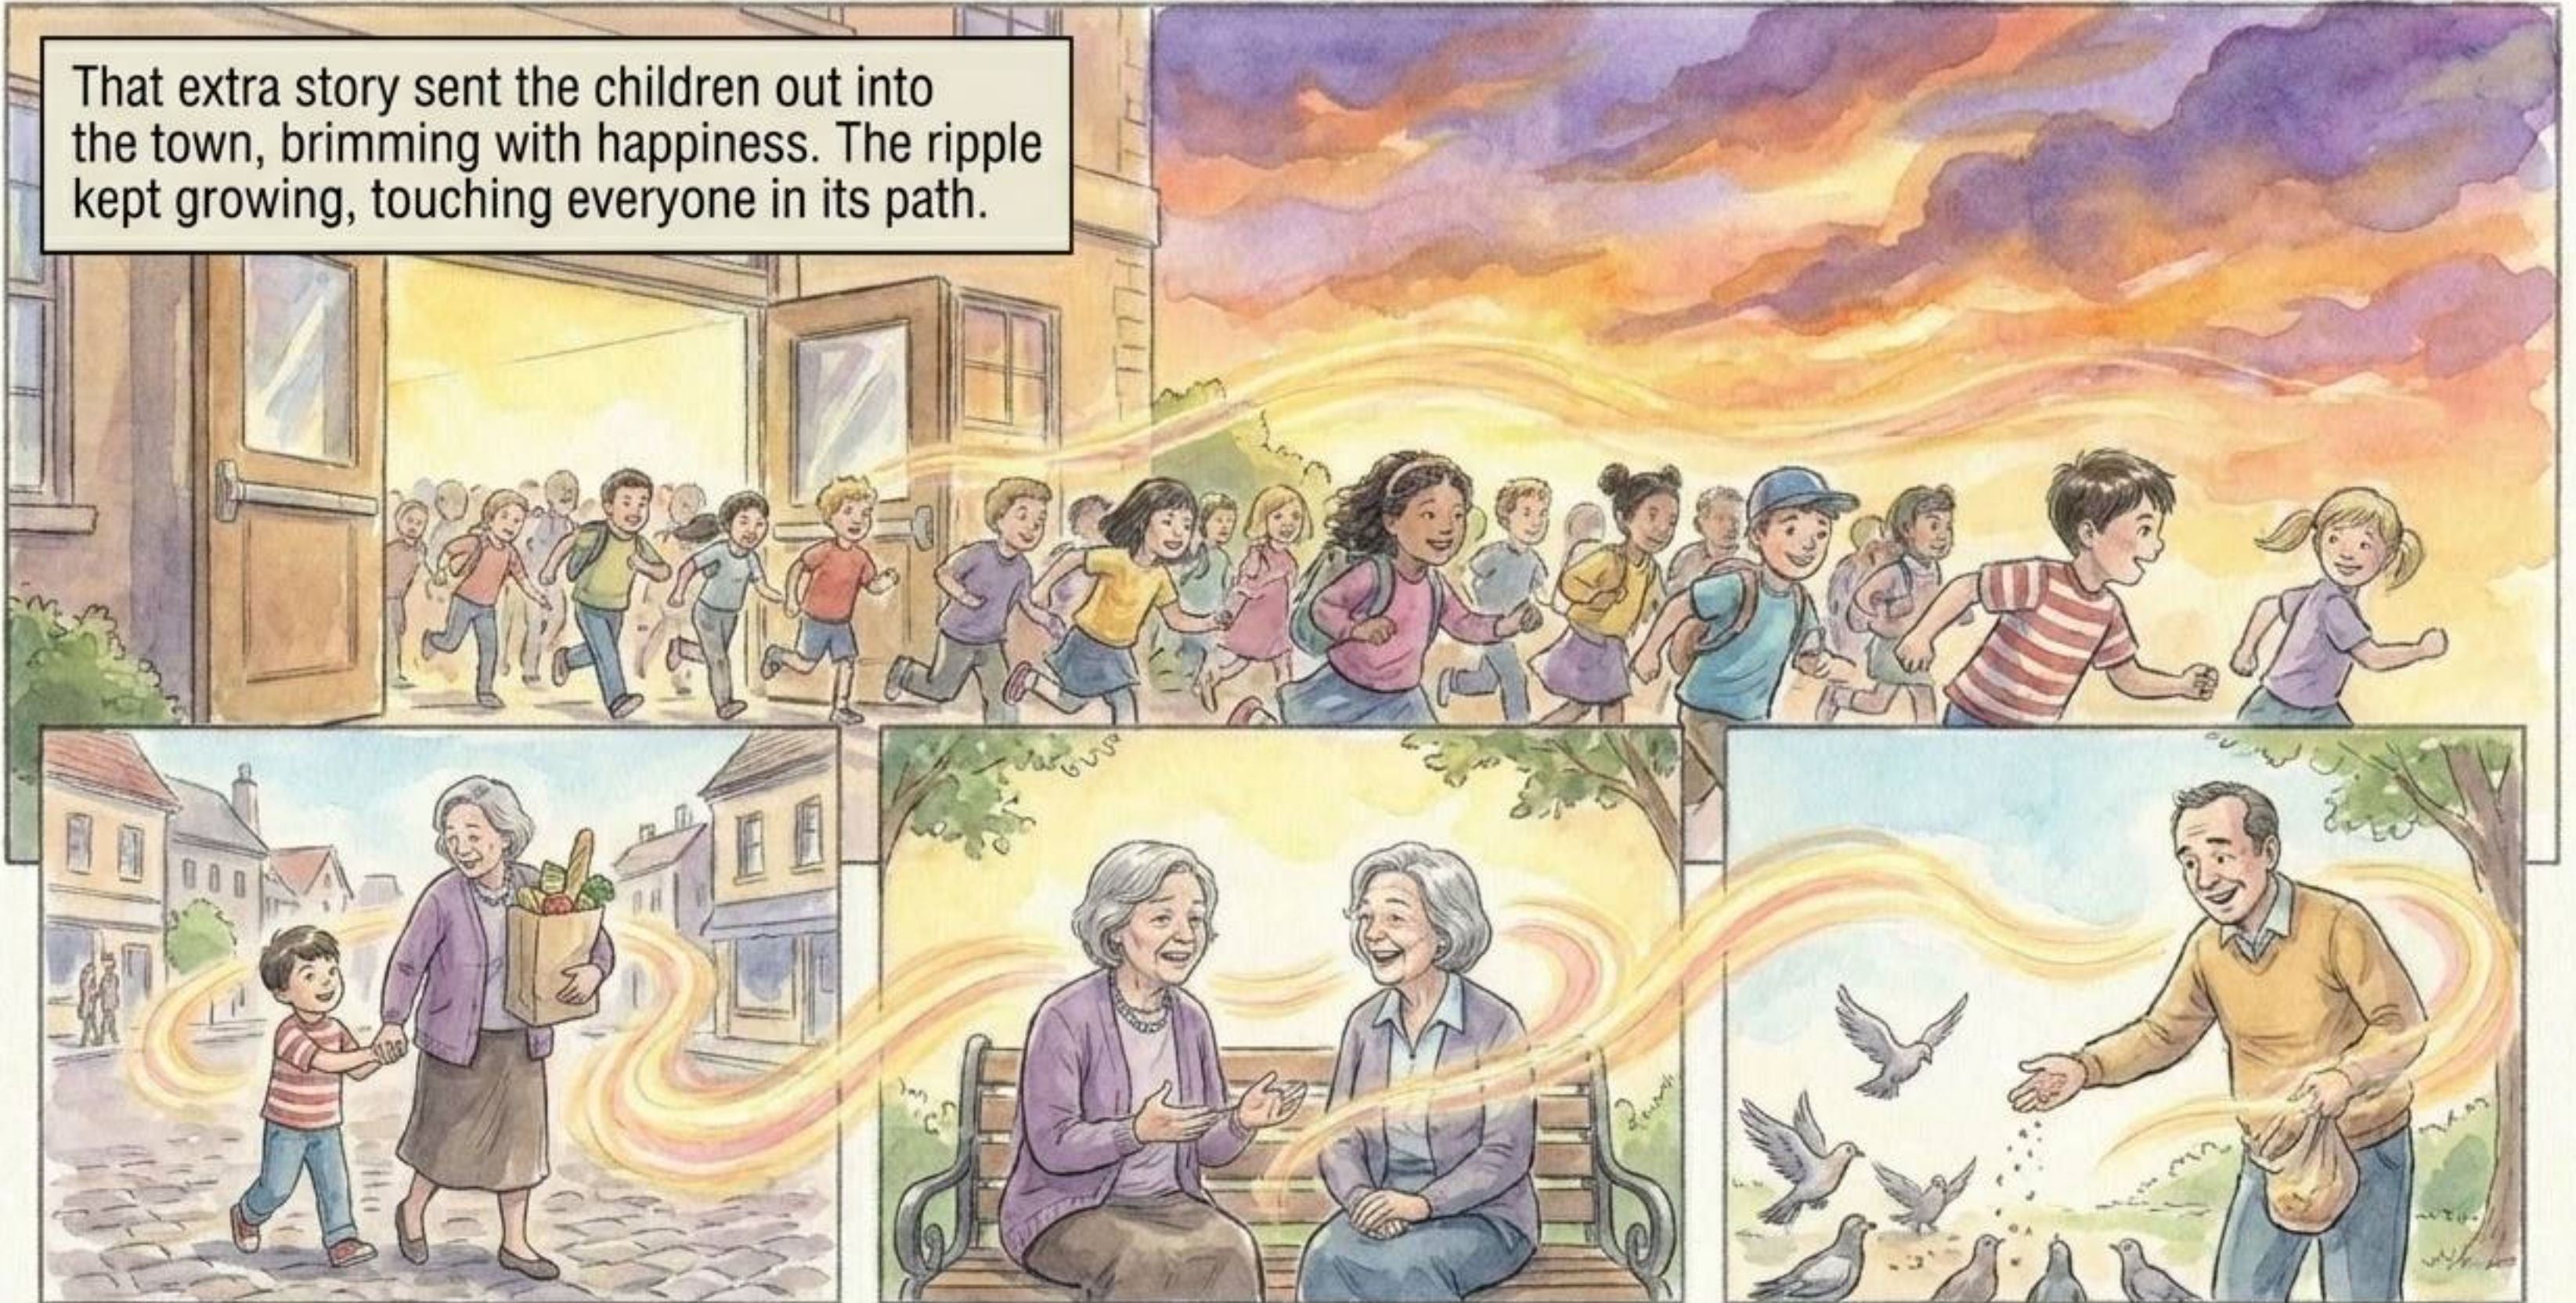

And sparks can light
up a whole room.

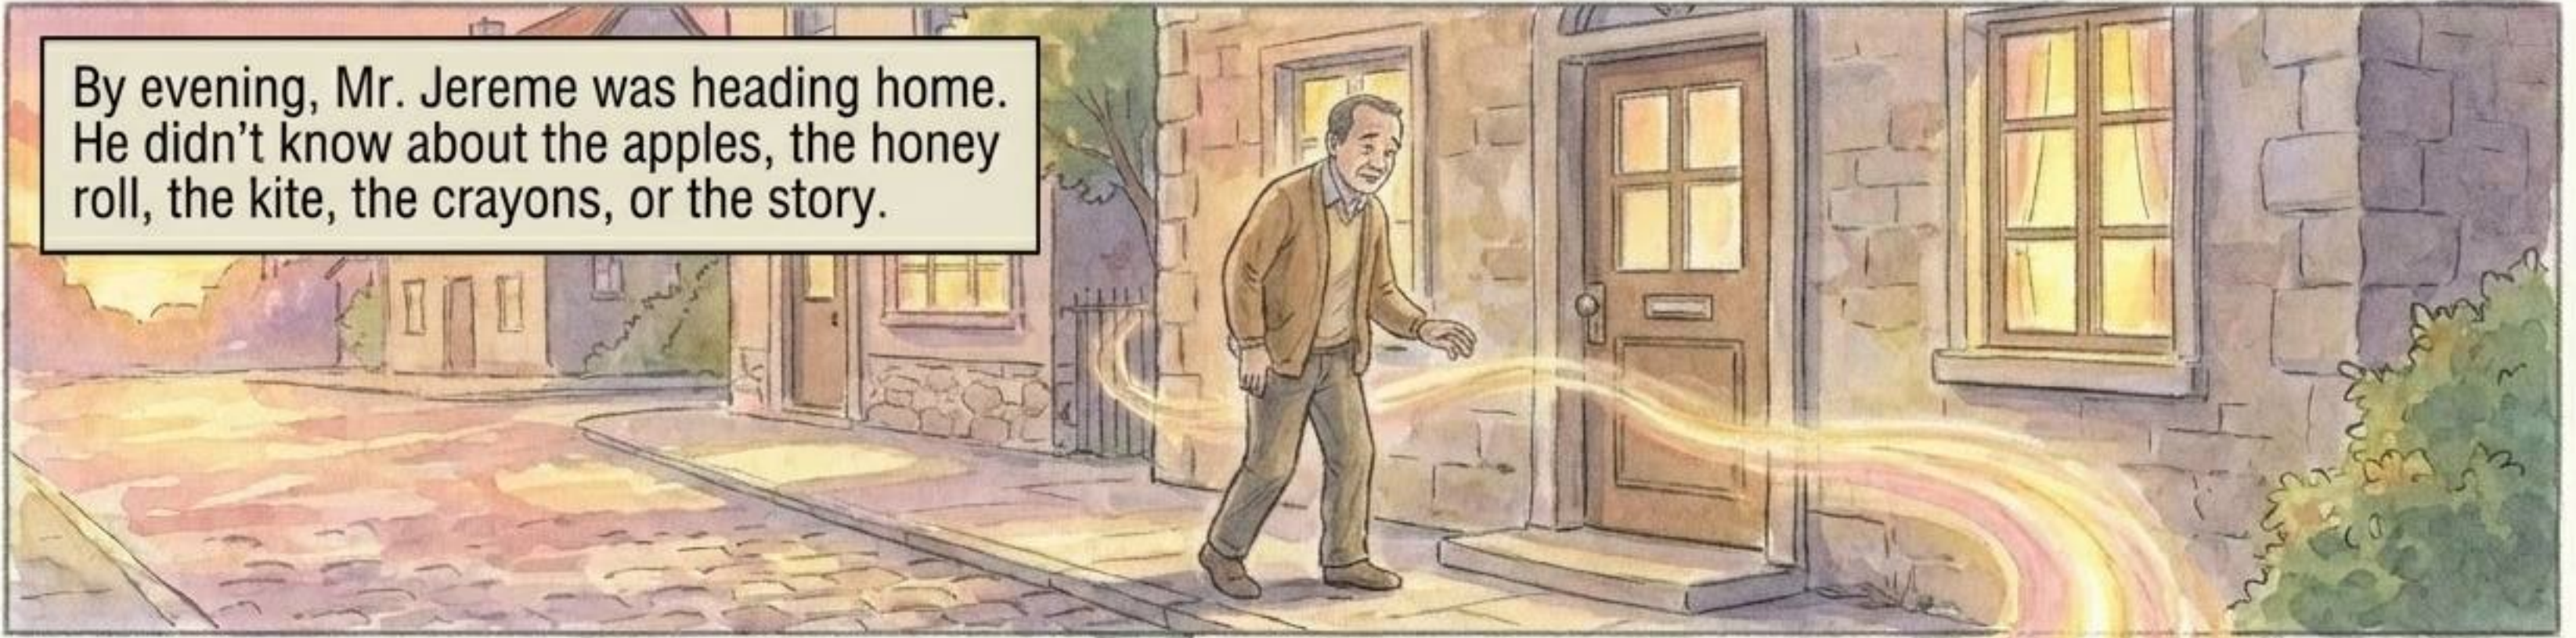

Who wants to hear
one extra, super-special
adventure story before
we go home?

That extra story sent the children out into the town, brimming with happiness. The ripple kept growing, touching everyone in its path.

By evening, Mr. Jereme was heading home. He didn't know about the apples, the honey roll, the kite, the crayons, or the story.

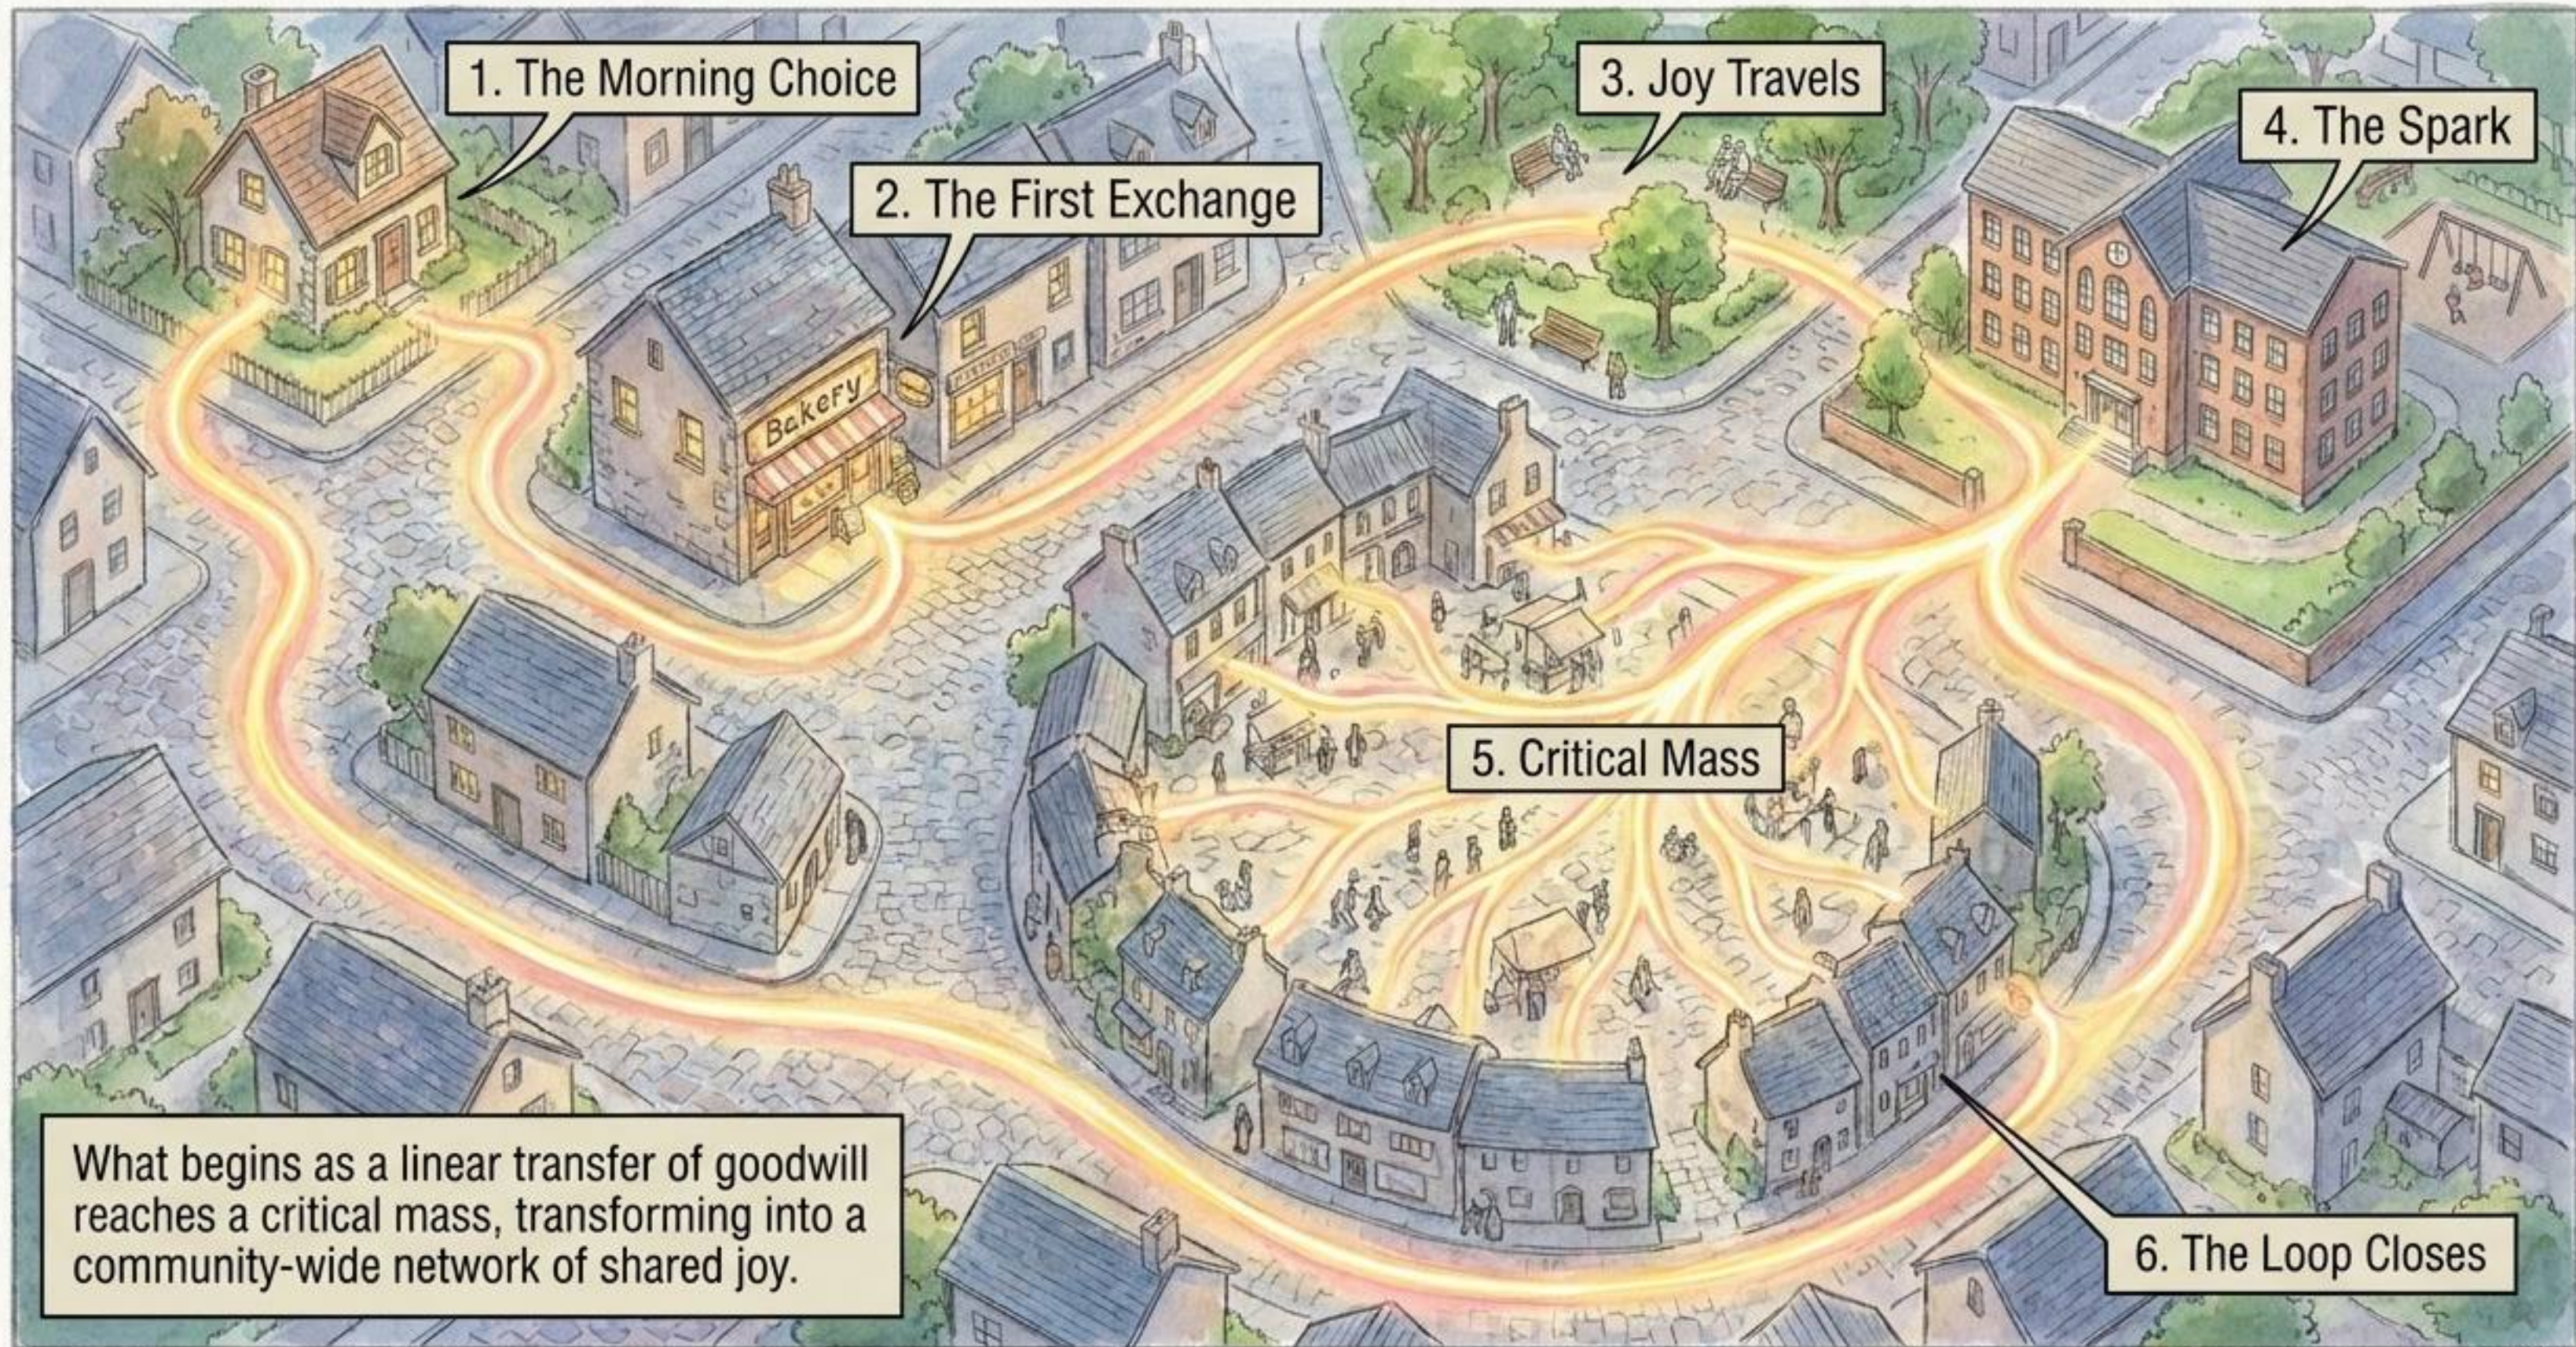

But the kindness he started had found its way back to him.

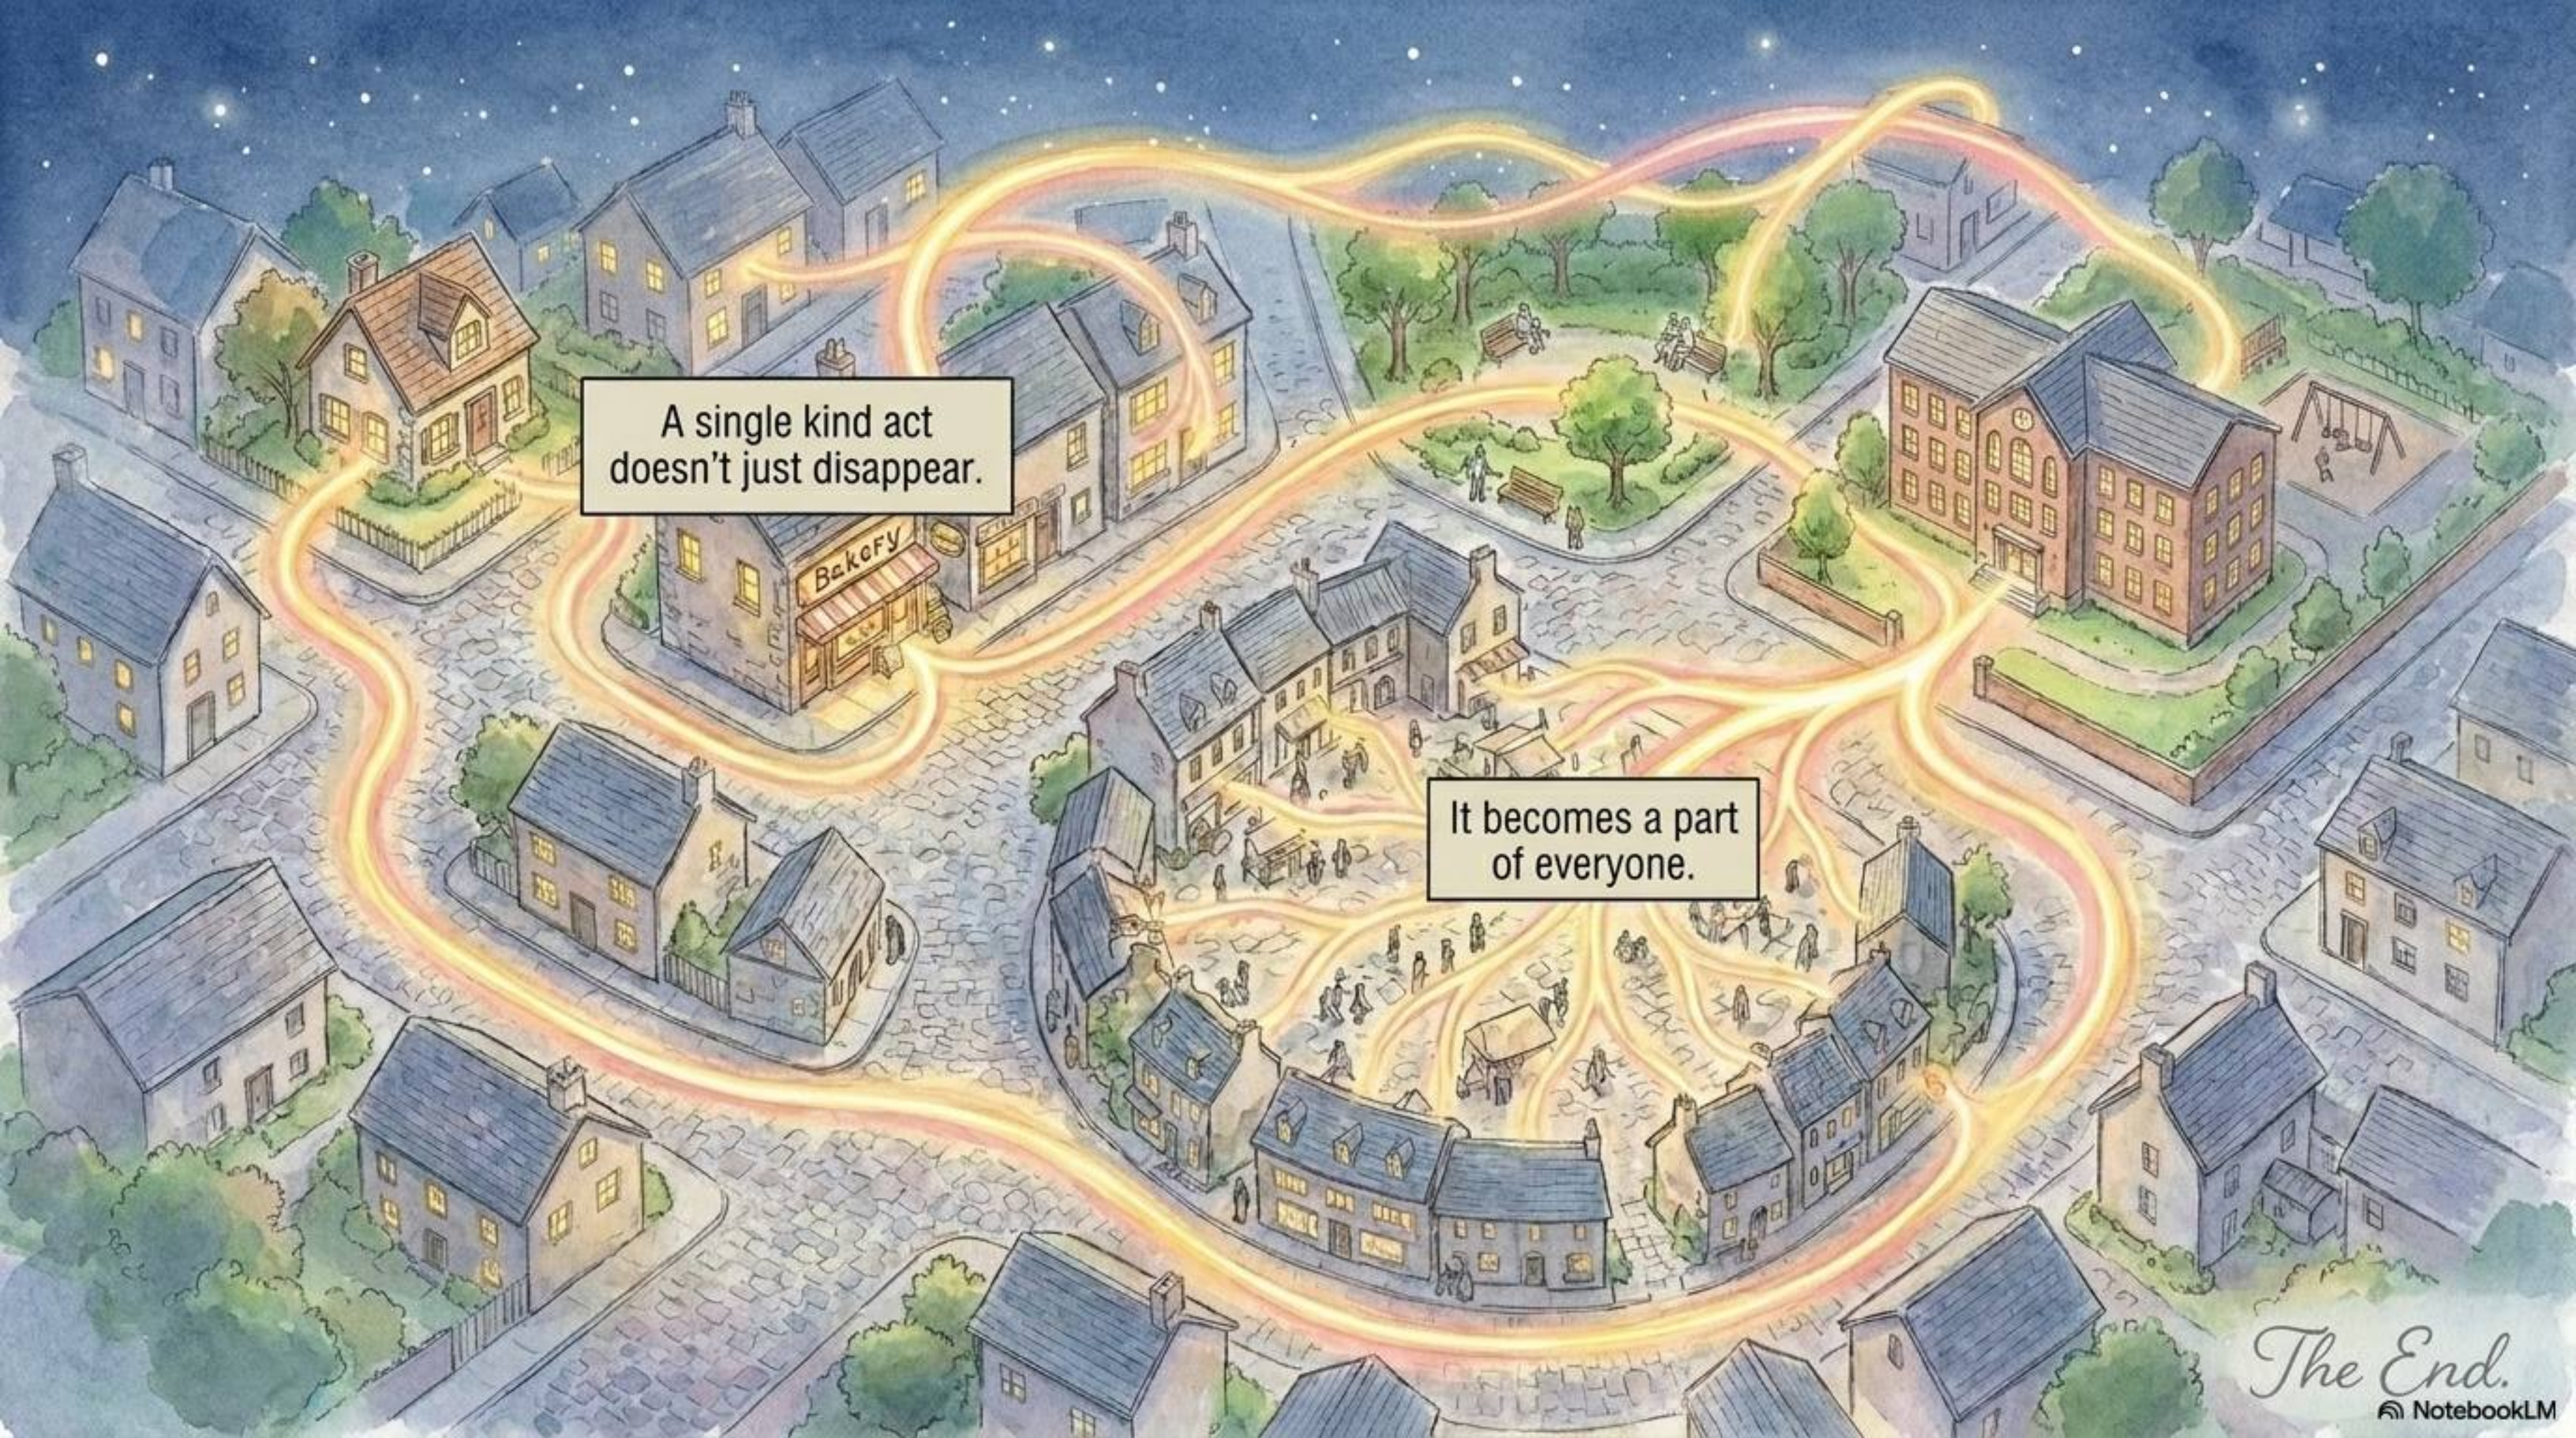

The Emotional Alchemy of a Smile

Giving to others makes us a better person. Every interaction fundamentally shifted the emotional state of the recipient, converting isolation and frustration into warmth and generosity.

Character	Before the Spark	After the Spark
 Mrs. Gable		
 Mr. Grump		
 Sam		
 Mrs. Librarian		

The Anatomy of a Ripple

An isometric illustration of a town at night. The town features various buildings, including houses and a bakery with a sign that says "Bakery". A central square is filled with people. Glowing, wavy lines of light in shades of yellow and orange swirl through the town, connecting different buildings and the central square, symbolizing the spread of a kind act. The sky is dark blue with stars.

A single kind act
doesn't just disappear.

It becomes a part
of everyone.
