PROFESSIONAL SUMMARY

Detail-oriented and versatile remote professional with 4 years of Quality Control experience at San Miguel Corporation, one of the Philippines' largest F&B conglomerates. Skilled in data analysis (SQL, Power BI, Tableau, Advanced Excel), process automation (Google Apps Script, Google Sheets), and AI-assisted productivity (Claude, ChatGPT, Gemini). Also brings a creative edge as an independent graphic novelist and digital content creator, with proven English writing and communication skills. Open to remote roles in Quality Control, Data Analytics, Virtual Assistance, Creative Writing, and English/Math Tutoring. Delivers accurate, high-quality output independently — from anywhere.

CORE SKILLS

Data & Technical

- | | |
|------------------------------------|--|
| • SQL & PopSQL | Power BI & Tableau |
| • Advanced Microsoft Excel | Google Sheets |
| • Data Entry, Cleaning & Reporting | MS Word & PowerPoint |
| • Canva & Adobe Photoshop | CAD / SketchUp Pro / ETABS |
| • HACCP & Food Safety Compliance | Quality Control & Assurance |
| • Warehouse & Inventory Management | Remote Collaboration (Zoom, Google Meet) |

Automation & AI Tools

- | | |
|---|--|
| • Google Apps Script (POS, Cashier & Attendance Automation) | |
| • Google Sheets Workflow Automation | AI Tools: Claude, ChatGPT, Gemini |
| • Prompt Engineering & AI-Assisted Reporting | AI-Powered Content & Document Production |

Creative & Communication

- | | |
|---------------------------------|---|
| • Graphic Novel & Comic Design | Storytelling & Narrative Writing |
| • Script & Screenplay Writing | Social Media Content Creation |
| • English Composition & Editing | Math Tutoring (Algebra to Basic Calculus) |

Soft Skills

- | | |
|---|-----------------------------------|
| • Problem Solving & Analytical Thinking | Detail-Oriented & Deadline-Driven |
| • Self-Motivated & Independent | Reliable & Fast Learner |
| • Strong Written & Verbal Communication | Calm Under Pressure |

WORK EXPERIENCE

Quality Control Inspector

San Miguel Corporation — Integrated Farm Specialist (SMC IFSI)

Mega Production Plant (MPP), Davao Sur, Philippines | 2022 – 2026

- Conducted systematic quality inspections at a high-volume F&B production facility, generating detailed compliance reports and ensuring full adherence to HACCP, GMP, and Food Safety standards across all inspection cycles.
- Maintained engineering records, administrative files, and regulatory compliance documentation across multiple departments — skills directly transferable to remote VA and administrative roles.
- Prepared technical summaries, data reports, and management presentations translating complex inspection data into clear, actionable insights using MS Excel, Word, and PowerPoint; leveraged AI tools (Claude, ChatGPT) to automate repetitive reporting tasks and reduce document turnaround time.
- Built Google Sheets-based automation tools for internal tracking workflows, including a POS/inventory system, cashier automation, and attendance tracking — demonstrating hands-on Google Apps Script proficiency.

- Served as a 2-year active member of the Crisis Management Team, coordinating emergency response protocols and cross-functional documentation under high-pressure conditions.
- Applied Animal Health & Welfare and Food Defence standards within an integrated farm-to-plant environment, ensuring end-to-end regulatory compliance.

CREATIVE PORTFOLIO

Independent graphic novelist and digital content creator with an ongoing series of original illustrated stories in active production. Work is published digitally across YouTube, TikTok, and Facebook, with new titles continuously in development. This portfolio demonstrates strong English writing and storytelling skills, creative direction, visual design, and consistent independent content publishing — directly applicable to Creative Writing Specialist, Tutoring, and Virtual Assistant roles.

RELEVANT PROJECTS

Google Sheets Automation Suite — Personal & Applied Projects

Google Apps Script | Ongoing

- Built a fully functional POS and inventory management system in Google Sheets using Google Apps Script, automating stock tracking, sales recording, and low-stock alerts.
- Developed a cashier automation tool to streamline billing and transaction logging, reducing manual entry errors.
- Created an automated attendance tracker with time-in/time-out logging, summary reports, and absence flagging — deployable for remote teams or small businesses.

Data Analytics Dashboard — Personal Project (In Progress)

SQL, Power BI, Advanced Excel | In Progress

- Building an end-to-end data analytics pipeline from raw data ingestion through SQL querying to Power BI dashboard visualization.
- Integrating AI tools to automate reporting summaries and demonstrate modern remote-work analytics proficiency.

Flood Control & Water Resource Analysis — Undergraduate Thesis

University of Southeastern Philippines | 2018

- Conducted a data-driven hydrological study of the Davao City river system, analyzing flood risk patterns and infrastructure capacity to produce evidence-based flood control recommendations.
- Collected, cleaned, and interpreted large datasets — foundational data analysis skills now applied in professional and personal projects.

EDUCATION

Bachelor of Science in Civil Engineering

5 Years of Coursework Completed

University of Southeastern Philippines | Davao City, Philippines | 2013 – 2018

CERTIFICATIONS & TRAINING

- Data Analysis Certificate — Coursera
- HACCP: Hazard Analysis and Critical Control Points
- Good Manufacturing Practices (GMP) Seminar
- Food Safety and Food Defence Training
- Quality Control and Quality Assurance Training
- Warehouse and Inventory Management Training
- Crisis Management Training (2-Year Active Team Member)
- Material Testing Seminar
- Animal Health and Welfare Training

- AI Tools Proficiency — Self-Directed (Claude, ChatGPT, Gemini, Prompt Engineering)
